

**Nine Month Cost of Attendance
Title IV Federal Financial Aid
(Federal Pell Grant, Campus-Based Grants, Federal Family Education Loans)
2009-2010**

How is my financial need calculated?

For awarding Federal financial aid the following calculation is used:

$\text{Cost of attendance} - \text{Expected Family Contribution} = \text{Financial Need}$

Financial aid from all sources cannot exceed the student's financial need. The cost of attendance (COA) includes tuition, fees, books, supplies, room, board, transportation, and miscellaneous expenses. The expected family contribution (EFC) is determined by the Federal Needs Analysis using the information the student/parent furnish on the FAFSA. Your EFC is the amount that you are expected to provide toward your college costs.

Other factors that can affect the cost of attendance are individual program specific expenses.

How much will it cost for a Florida resident to attend PJC?

Florida resident, not living with parent, enrolled full-time (minimum 12 credits):

Tuition and fees	\$ 2,017
Books and supplies	1,100
